

OBD-II Cable

J1962M Y-Cable

Product Description

- RoHS Compliant
- All 16 pins connected, OBD2 splitter
- Allows two devices to be connected simultaneously
- Heavy-duty materials and quality craftsmanship give the cable superior flexibility and durability
- Aluminum foil shielding and twisted pairs for signal lines (J1850 BUS+/BUS- and CAN High/Low lines) give the cable exceptional EMI noise immunity
- The SAE J1962M connector, engineered from the ground up, ensures compatibility with the widest range of vehicles
